

STARTING JUNE 2025

# TAKE YOUR LEADERSHIP TO THE NEXT LEVEL: LEVEL 7 SENIOR LEADER APPRENTICESHIP

We are now accepting applications for our Level 7 Senior Leader Apprenticeship, starting June 2025. Following the success of our initial cohort, where 100% of achievers received a distinction on their first attempt we are confident this programme will help leaders unlock their potential.

## WHY ACT NOW?

### LIMITED AVAILABILITY

This is your opportunity to secure a place in a high-demand programme that offers Master's degree-level qualifications. With funding changes on the horizon, places are expected to go quickly!

### GOVERNMENT FUNDING ENDING SOON

The cost to employers is only £700, with the government currently subsidising the remaining £13,300. However, from early 2025, government funding for Level 7 provision will be reduced, meaning employers will need to pay significantly more. Don't miss out on this current funding opportunity

### PROVEN SUCCESS

Our pilot cohort saw 100% distinction achievement on the first attempt, demonstrating the quality and effectiveness of our approach.

## WHAT OUR APPRENTICES SAY

"The Level 7 Senior Leader Programme was an exceptional learning experience, delivered with clarity whilst being friendly and motivational. The content was highly relevant, and the practical insights gained have directly enhanced my strategic decision-making and leadership skills as a Managing Director. I've found the programme invaluable in shaping my approach to leadership, and I would wholeheartedly recommend it to any senior professional looking to elevate their impact and drive organisational success"

Victoria Talbot - Managing Director, Steadfast Tapes

"I recently completed my Level 7 qualification and was fortunate enough to achieve a distinction. At over 50 years old, becoming an apprentice felt a little unconventional, especially as I operate at a senior level as an executive within a large SME (£50m+ turnover).

However, the past three years have proven to be incredibly valuable. What I've learned hasn't just been relevant—it's provided a clear structure to the things many of us do instinctively. It brings a process-driven approach and strategies that now help me manage the business effectively day-to-day, month-to-month, and long term. Most importantly, these strategies can be applied in the real world, driving meaningful results and creating a positive impact not only on the business but as importantly the teams that work within them." Tom Sene - Partnership Sales Director, Alexir Partnerships
