TRAINING PROGRAMMES AT BPIF TRAINING

BPIF Training specialises in delivering practical training tailored to the specific needs of the modern printing industry. Our training programmes, designed specifically for the printing sector, have been rated as 'Good' by Ofsted. With our work-based apprenticeships, there's no need for apprentices to attend college on a day-release basis.

A dedicated training coordinator provides support to both employers and apprentices throughout their learning journey, ensuring personalised assistance for various learner requirements and guaranteeing the development of skills crucial for your business. Continuous access to progress updates via online portfolios is available around the clock for both employers and apprentices. Moreover, our Virtual Learning Environment and Online Classrooms offer access to top-quality learning resources.

Mathematics and English skills are indispensable in the workplace, and these qualifications remain mandatory for all apprenticeships. BPIF Training offers support to apprentices lacking these qualifications, assisting them in reaching the required standard based on their individual starting points.

Employers remain actively involved in monitoring their apprentice's progress throughout the training period. At the programme's conclusion, a formal end-point assessment is conducted as per the standard requirements. Prior to this assessment, a review involving the employer, apprentice, and training coordinator ensures unanimous agreement on the apprentice's readiness to successfully complete it.

BPIF Training is dedicated to supporting both employers and apprentices through this new standard, enabling the development of a highly skilled workforce.
